

PROFESSIONAL

- Innovative detailing solution which cleans and shines all exterior vehicle surfaces in one.
- Environmentally friendly formula releases and suspends dirt; ensuring surfaces are deep-cleaned and polished.
- Ideal for cleaning and detailing paintwork, plastic trim, glass, chrome etc.
- Fast and easy to use; simply spray, wipe and buff to shine.
- Creates a showroom finish in less than 30 minutes.

Available in ready-to-use and concentrate formats

Pearl Professional Concentrate

To achieve the optimum working solution:

Ensure concentrate is mixed thoroughly prior to dilution.

Dilute 1 part concentrate with 9 parts water (1:9) and mix thoroughly before use.

E.g. 5L of Professional Concentrate makes 50L of ready-to-use product.

Directions:

Shake well before use

1. Mist spray of Professional onto a folded microfiber cloth and onto the surface area to be cleaned.
2. Gently wipe the product onto the surface with pre-wetted folded microfibre cloth.
3. Using a second clean folded microfibre cloth, quickly, buff off the remaining residue to impart a deep gloss wax protected shine. Replace cloths if they become too soiled. Repeat process until the whole vehicle is clean and highly polished.

Can be used in the sun, but for best results use in the shade out of direct sunlight. Can also be used on a wet or dry surface.

Do not use on heavily soiled surfaces with a build-up of mud, caked-on sand or any other abrasive materials.

Typical Specification :

Composition : A complex blend of surfactants and silicones in a water base.

Appearance : Free flowing liquid

Colour : Green

Odour : Fruit

S.G. : 1.00

Shelf Life : Two years in unopened containers at ambient temperature.

Packaging : 750ML, 5L, 25L , 205L, 1000L

Ready-to-use: PL045

Concentrate: PL052
